CARB.O.LITE Polycarbonate Awnings

CARB.O.LITE is guaranteed for 2 years

CARB.O.LITE covers all the bases!

Homes need awnings for many reasons: SHADE, PROTECTION and LOOKS, yet no one wants to diminish the natural light streaming through the house.

CARB.O.LITE awnings give you the protection, the looks, and much more. CARB.O.LITE is a translucent, twiwallled poly-

carbonate sheet which has unique solar properties capable of withstanding nature's harshest elements.

Sick of fading furnishings? Another advantage of CARB.O.LITE is **99.9% UV protection**. UV rays are the element that slowly but surely fades and rots your carpet and furniture. The protective coating in CARB.O.LITE filters out these rays ensuring your furniture and carpet remain protected.

The product is available in a variety of shapes and sizes—

against cracking, rotting and yellowing.

from the traditional bullnose to the architectural dome and conventional flat, CARB.O.LITE suits all applications.

CARB.O.LITE Awnings last longer than the familiar traditional fabric awnings. This feature alone makes CARB.O.LITE awnings terrific value for money.

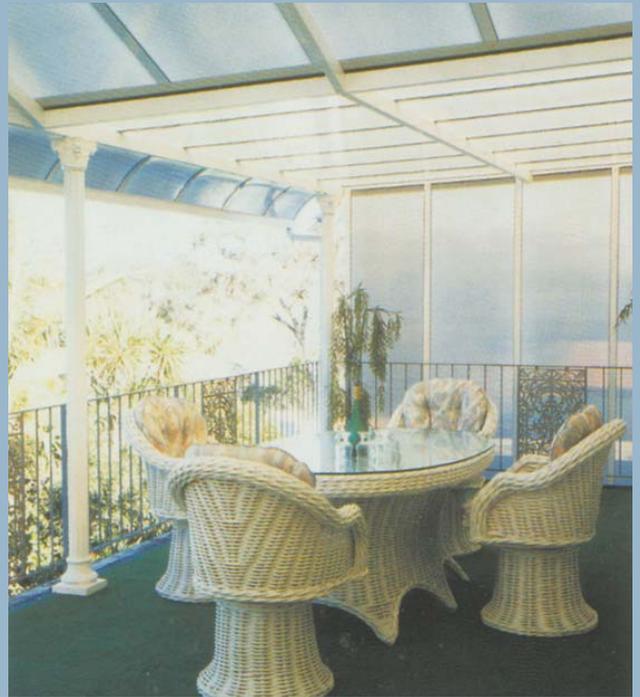

CARB.O.LITE is unique because it can remain a lightweight material despite the fact that it is **200 times tougher than glass**.

The componentry used in this structure is the latest in awning technology, ensuring your awning can withstand sun, rain, wind and hail.

A Carbolite awning will **add value** to your home. Choose from our many styles and colours to achieve the best design solution for your home.

CARB.O.LITE Awnings are designed as a complete leakproof roofing system.

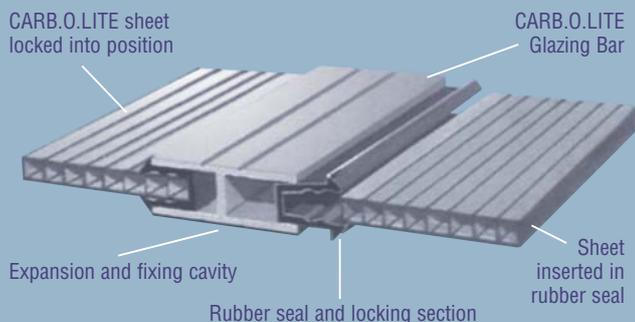

CARB.O.LITE panels can be utilised as wall cladding to give privacy and complete weather protection.

CARB.O.LITE is available in 5 colours, each with its own light transmission percentage.

CARB.O.LITE 8mm Twinwall	Light Transmission	Shading Coefficient
